Bulletin on Microvita Research and Integrated Medicine

Editorial

A Decade of Journey....

Bulletin on Microvita Research and Integrated Medicine (BOMRIM) is an official bulletin of Society for Microvita Research and Integrated Medicine (SMRIM). It was started in March, 2009 with the aim to propagate the basic knowledge and science of microvita and integrated medicine to the masses in general and scientific community in special. After obtaining International Standard Serial Number (ISSN)-2321-2349 in 2013, it has attracted International Faculties working in this field to contribute their views in this International peer-reviewed Journal. Two International Seminar on Microvita Research conducted in 2012 and 2016, boosted the input of the articles and the flow of outgoing knowledge to the National and International (Sweden, Germany, Venezuela, Netherlands) faculties. In last ten years, BOMRIM has published vast authenticated concepts and propositions in the field of microvita and has coined the newer terminologies for the science of microvita, such as 'Microvitology' (Study of science of microvita), 'Microvitopathy' (Diseases caused by microvita) and 'Microvitopsychothy' (The mental affliction/disease by microvita) besides the topics on microvita, virus, pole-

shift, yoga psychology, concept of mind, higgs bosons, ontological models for evolution, research on various plants, Ayurveda and Homeopathy. Journal has first time published flora and wildlife depicted in 5018 songs of *Prabha't samgiita* and plants mentioned in Yaogic treatments and Natural remedies. To emphasize the importance of microvita science all over the world, 31st December was declared as Microvita Day and a special issue was released. Two Guest edited volumes and special issues such as on a medicinal plant *Semal* (Silk Cotton Tree) have also been published.

The hard, strenuous journey of last ten years encourages us to go far away in a more systematized, more enthusiastic, more conceptualized and focused way to the subject. It is a small endeavor of ours to fulfill the desire of the propagator of microvita concept Shrii P.R. Sarkar, so that the new and difficult science of microvita would become the subject of intensive and extensive research in physical and psychic fields by scientists and spiritualists working together. It will be the only way to solve the present and upcoming problems of the modern society.

Abstract

Bulletin on Microvita Research and Integrated Medicine (BOMRIM) was started as an official bulletin of Society for Microvita Research and Integrated Medicine (SMRIM) in 2009 as a peer-reviewed, tri-annual journal devoted to research related to microvita, integrated medicine and allied subjects. It obtained International Standard Serial Number (ISSN)-2321-2349 in 2013 and completed its ten years journey in 2018. Therefore, it was realized to prepare a cumulative chronological index of authors and titles of articles published in Volumes 1-10. A total of 72 research articles, two poems, one report of International Seminar on Microvita Research (ISMR-2016) and regular activities of SMRIM became part of BOMRIM in the decade from 2009-2018. The present article will help future researchers as a handy reference guide for fast accessing their required relevant material.

Keywords: Microvita, Virus, Medicine, *Semal*, Evolution, *Prabhat Samgiita*, Homeopathy

Bulletin on Microvita Research and Integrated Medicine started in March, 2009 is an official peer reviewed Journal of Society for Microvita Research and Integrated Medicine (SMRIM), Udaipur, Rajasthan. It publishes three issues in a year having original research, reviews, short notes, case studies in the field of microvita and integrated medicine in both hard and soft copies. Book reviews are published after approval by Editor. The Journal does not levy any Article Processing Charges or Article Submission Charges. Previous issues are available online at : www.microvitamedresearch.com

Instructions to Authors

Preparation of the Manuscript

Manuscripts should be typed in double space (12 pt, Times New Roman font) on one side of the paper of 22×28 cm. All pages should be numbered consecutively. SI units should be used and Symbols should conform to standard guidelines.

Title

It should be short & informative (14 pt), to be typed in only first letter of the first word capital; also, after colon or hyphen, first letter of the first word capital. Latin names are to be given in italics.

Keywords

Four to five keywords (in normal; 11 pt) should be given indicating the contents of the manuscript.

Authors

Names of authors to be typed in first letters capital (12 pt).

Addresses of Authors

Addresses of the affiliating institution (s) along with e-mail address (10 pt) should be given.

Main Headings

Each manuscript should be divided into the following main headings (typed in bold, first letters capital, on the left hand side of the page; 12 pt): Abstract, Introduction, Methodology, Results, Discussion, Acknowledgement, References.

Sub-Headings

Typed in flush left, bold, first letters capital (10 pt).

Abstract

It should be brief within the limit of 200 words and typed in normal font (11 pt).

Introduction

A brief and precise literature review with objectives of the research undertaken and essential background could be given.

Methodology

Methodology should include location of survey area, the source and nature of material, experimental design and the techniques employed.

Results

Results should contain data, which are essential for drawing main conclusion from the study. Wherever needed, the data should be statistically analyzed. Same data should not be presented in both table and figure form.

Discussion

The discussion should deal the interpretation of the results. Wherever possible, results and discussion can be combined.

Tables

Tables should be typed in double space on separate sheets and numbered consecutively. Table headings should be typed with the first letter capital (12 pt).

Figures

Relevant good quality illustrations/ photographs/line drawings etc. could be sent in JPEG format through email. Text figures should be numbered in Arabic numerals.

Lettering, numbering, symbols and lines in the graphs/illustrations should be sufficiently clear. Captions and legends to illustrations should be typed on a separate sheet of paper.

Acknowledgement

Acknowledgements should be made in brief.

References

References should be cited in the text by the consecutive **numbers** of their occurrence; the numbers are to be shown as superscript at the end of the statement related to that particular reference, e.g. Microvita are mysterious emanations from Supreme Consciousness¹.

Following the same sequence of the text, the list of references be appended under the **References** heading. Each reference should provide names and initials of all the authors, giving coma in between the authors. In case, the authors are more than five, then use *et al* after the 5th author. It should be followed by year of publication, title of the paper, abbreviated title of journal (in italics)/ book title in italics, volume number, issue number and the starting and closing page numbers. Abbreviated titles should conform to the international guidelines, e.g. The Chemical Abstracts Service Source Index (CASSI) or BIOSIS

The style of references should be:

Research Papers

1. Verma SK. 2016. Microvitopathy. *Bull. Microvita Res. Integr. Med.* 8(1-3):3.

Books

1. Sarkar PR. 1987. *Microvita in a Nutshell*. p.56. AMPS Publ., Tiljala, Kolkata.
2. Jain V. & Jain SK. 2016. *Compendium of Indian Folk Medicine and Ethnobotany (1991-2015)*, pp. 1-542. Deep Publ., New Delhi.
3. Jain V. 2017. Chapter 5.1: A glimpse of culture-based man-plant relationships in Indian folk life. In: *Methods and Approaches in Ethnobotany (Concepts, Practices and Prospects)* (Ed. Jain SK and Jain V), pp. 151-157. Deep Publ., New Delhi.

Paper along with referees' comments will be sent to the corresponding author through email which should be checked carefully and returned after modifications within five days of receipt. No page proofs will be sent to author(s).

PDF of the issue in which the article is published will be provided to the author via e-mail.

The language of the Journal is English. However, there is also scope for few articles in Hindi in every issue. Book reviews and papers neatly typed, double spaced, with margins on all sides along with photographs (if any) may be submitted through E-mail at: skvermaster@gmail.com

All correspondence regarding Journal should be sent to:
